

## James Fisher Nuclear announces acquisition of HTSL

15<sup>th</sup> January 2015

---

### James Fisher Nuclear announces the acquisition of High Technology Sources Limited (HTSL) based in Didcot, Oxfordshire.

The HTSL team is highly experienced in every area of source technology and its application in a wide range of industries from oil drilling to the manufacture of pharmaceuticals. This acquisition will further enhance the offering from James Fisher Nuclear and complements its Radiological Calibration Service (RCS) based in Deeside, North Wales.

HTSL provides an extensive range of sealed Industrial Sources and Reference and Calibration Sources through their Exclusive UK distribution agreements with world renowned source manufacturers and suppliers, Eckert and Ziegler. The sources are manufactured to the highest standards and comply fully with applicable national and international standards.

HTSL also exclusively distributes throughout the UK and Ireland, QSA Global's Sentinel NDT Sources and NDT Equipment product ranges. These market leading products provide a diverse, yet complimentary range to HTSL's portfolio.

The Directors, Duncan Aston and Jon Benn, will continue in position and the business will operate as usual.
